National Mathematics Magazine

INDEX TO VOLUME XI

October, 1936 to May, 1937

Topic	*Author*	*Page*
Algebra for College Students, by H. R. Willard and N. R. Bryan. (Review)	H. A. Robinson	67
Analytic Geometry, by P. H. Graham, F. W. John, and H. R. Cooley. (Review)	L. E. Bush	158
Analytic Geometry, by Iohn W. Young, Tomlinson Fort, Frank Morgan. (Review)	P. K. Smith	111
Anekdoten Aus dem Leben deutscher Mathematiker, by Johannes Mahrenholz (Review)	G. Waldo Dunnington	63
Applications the Better Half of Mathematics, by Wilson L. Miser (Abstract)	P. K. Smith	408
B. F. Thibaut (1775-1832), Early Master of the Art of Teaching and Popularizing Mathematics	G. Waldo Dunnington	318
Biographical Sketch of Otto Neugebauer	G. Waldo Dunnington	14
Call for Aggressiveness	S. T. Sanders	164
Cause and Cure of Delinquency in College Mathematics	Glenn James	274
College Algebra, by Hobart C. Carter (Review)	L. E. Bush	112
Comparison of Methods foi Finding the Interest Rate in Installment Payment Plans	H. E. Stelson	172
Complete Approximate Solutions of the Equation $x = \tan x$	Sidney Frankel	177
Concerning the Teaching of the Linear Equation	D. H. Richert	382
Cours de Mathematiques Speciales, Tome I, by H. Commissaire and G. Cagnac (Review)	W. E. Byrne	285
Cours de Mathematiques Speciales, Tome II, by H. Commissaire and G. Cagnac (Review)	W. E. Byrne	404
Descriptive Geometry, by Frank W. Bubb (Review)	B. D. Mayo	285
Die Spharik von Menelaos aus Alexandrien in der Verbesserung von Abu Nasr Mansur b'. Ali b. 'Iraq, mit Untersuchungen zur Geschichte des Textes bei den islamischen Mathematikern, by Max Krause (Review)	G. Waldo Dunnington	341
Easy Method for Drawing Curves in Polar Coordinates	A. K. Bettinger	327
Elementary College Algebra, by H. W. Kuhn and J. H. Weaver (Review)	P. K. Smith	249
Elements of Probability, by H. Levy and L. Roth. (Review)	I. C. Nichols	345
Expansion of a Function in Terms of Exponentials	Lynn L. Merrill	78

Topic	*Author*	*Page*
Experiment in Cooperative Teaching	J. H. Weaver	268
First Course in the Differential and Integral Calculus, by Walter Burton Ford. (Review)	H. P. Thielman	286
First Printed Armenian Treatise on Arithmetic and Algebra	Allen A. Shaw	117
First Year College Mathematics, by M. A. Hill, Jr., and J. Burton Linker. (Review)	L. J. Adams	201
Fraction Rule in Logarithms	M. G. Scherberg	195
Generalization of Chevilliet's Formula	Chester C. Camp	8
Generalization of Pascal's Arithmetical Triangle	Altheod Tremblay	255
Generalization of Trigonometry	H. P. Thielman	349
Goethe's Attitude Toward Mathematics	Louis Locher	31
Graphical Representation of Complex Roots	James A. Ward	297
Graphical Solutions, by Chas. O. Mackey (Review)	S. W. Anderson	159
Handwriting on the Wall	S. T. Sanders	292
History of Mathematics	Otto Neugebauer	17
Hyperbolic Function Substitution	Harry Gwinner	334
In Memoriam: E. J. B. Goursat	G. Waldo Dunnington	190
Introduction to Mathematics of Business, by W. L. Hart. (Review)	I. C. Nichols	248
Introductory College Mathematics, by F. E. Johnston. (Review)	W. V. Parker	109
Invitation to Mathematics, by Arnold Dresden. (Review)	H. J. Ettlinger	288
Johann Friedrich Pfaff	G. Waldo Dunnington	263
Johannes Kepler als Mathematiker, by Fritz Kubach. (Review)	G. Waldo Dunnington	247
"Let Us Not Surrender". Excerpt from a letter of	A. J. Kempner	252
Linear Derivative Inequalities and Differential Equations	H. J. Ettlinger	126
Mathematical Analysis, by Maximilian Philip. (Review)	R. S. Underwood	202
Mathematical Notes	L. J. Adams	46
Mathematical Notes	L. J. Adams	105
Mathematical Notes	L. J. Adams	154
Mathematical Notes	L. J. Adams	196
Mathematics as a Subject Prescribed for Graduation from College, by J. N. Michie (Abstract)	J. N. Michie	409
Mathematics of Modern Engineering, Vol. I, by Doherty and Keller. (Review)	W. E. Byrne	63
Mathematics and the Hypotheses of Science	J. J. Ettlinger	71
Mathematics for Everyday Use, by John C. Stone and Vergil S. Mallory. (Review)	Henry Schroeder	114
Mathematical Theory of Finance, by Kenneth P. Williams. (Review)	W. D. Baten	160
Mathematical World News	L. J. Adans	241
Mathematical World News	L. J. Adams	279
Mathematical World News	L. J. Adams	336

Topic	*Author*	*Page*
Mathematical World News	L. J. Adams	390
Men of Mathematics, by E. T. Bell. (Review)	G. Waldo Dunnington	406
Noblesse Oblige	S. T. Sanders	208
Note on a Certain Trigonometric Equation	E. C. Kennedy	332
Notes on a 17th Century English Mathematical Manuscript	A. W. Richeson	165
Notes on an 18th Century English Mathematical Manuscript	A. W. Richeson	221
N Producers in Cooperation and Competition	A. A. Aucoin	354
Notes on Thomas Fantet de Lagny	Martin A. Nordgaard	361
Octo-Binary System	G. W. Wishard	253
On a Certain Cube Root	C. S. Carlson	333
On a Cubic Curve Associated with a Triangle	J. H. Weaver	293
On a Representation of the Newtonian Difference Quotients and their Applications. (An abstract)	L. Tchakaloff	183
On Dieffenbach's Method for the Solution of Biquadratics	Wilhelm Lorey	217
On Measures and Weights by Epiphanius	Allen A. Shaw	3
On the Difference Between Two Sample Variances	Allen T. Craig	259
On the Pell Equation	Howard D. Grossman	352
On the Projection of an Angle Upon a Plane	F. A. Rickey	209
On the Solution of Equations in an Infinity of Unknowns in Linear Topological Spaces. (An abstract)	Gottfried Köthe	185
Oslo Under the Integral Sign	G. Waldo Dunnington	85
Our Problem Department	S. T. Sanders	70
Pestalozzi and the American Arithmetic	E. R. Sleight	310
Place of Mathematics and its Teaching in the Schools of this Country. (Part II)	Joseph Seidlin	24
Place of Mathematics and its Teaching in the Schools of this Country. (Part III)	Joseph Seidlin	147
Plane and Spherical Trigonometry, by Alfred L. Nelson and Karl W. Folley. (Review)	Fred W. Sparks	66
Plane and Spherical Trigonometry, by Jabir Shibli. (Review)	Wilson L. Miser	158
Plane Trigonometry, By Edward S. Allen. (Review)	L. J. Adams	404
Plane Trigonometry, by K. B. Patterson and A. O. Hickson. (Review)	Wilson L. Miser	249
Professor Seidlin's Questionnaire on Mathematics Teaching	S. T. Sanders	2
Quality and Mathematics	S. T. Sanders	348
Rejected Papers of Three Famous Mathematicians	Arnold Emch	186
Remarks on the Law of Cosines	Edwin G. Olds	324
Report of the Mathematics Committee of the California Junior College Association. (A Review)	Joseph Seidlin	385
Report on Present Tendencies in the Development of Mathematical Teaching in Japan, by M. Kuniyeda. (Review)	Joseph Seidlin	231

Topic	*Author*	*Page*
Sectioning Students on the Basis of Ability	Frederick Wood	191
Sources of Euclid	Norman E. Rutt	374
Statistics on the Oslo Conference	G. Waldo Dunnington	94
Study of the History of Mathematics, by George Sarton. (Review)	G. Waldo Dunnington	204
Sum of a Polynomial	J. M. Feld	213
Teaching of Mathematics, by Raleigh Schloring. (Review)	C. D. Smith	344
Textbooks, Reference Books or Story Books	Harriet F. Montague	152
Triumph der Mathematik, by Heinrich Dorrie. (Review)	H. P. Thielman	345
Two Families of Parallelograms	Karleton W. Crain	304
Use of Matrices in College Mathematics	H. T. R. Aude	95
Vigeland's Monument to Abel in Oslo	G. Waldo Dunnington	145
Why Not?	S. T. Sanders	116
Wilhelm Pfaff	G. Waldo Dunnington	267

PROBLEMS PROPOSED

Of each pair of successive numbers followed by a semicolon, or a period, the first denotes the NUMBER of the problem proposed, the second, the PAGE on which it is stated.

Altshiller-Court, Nathan.....124,59; 125,60; 133,283; 134,284.
Aude, H. T. R.....119,55; 120,56; 130,61.
Bickerstaff, T. A.....131,61.
Blain, Kirby W.....143,340.
Blake, A.....146,402.
Brother Northbert.....126,396.
Briggs, A. C.....151,402.
Byrne, William E.....109,52; 132,283.
Clarke, Walter B.....155,403; 121,56; 156,403; 81,394.
Gaines, R. E.....152,402; 153,403.
Martin, M. H.....138,339; 150,402.
Miller, R. A.....122,58; 123,58; 127,396; 144,401.
Moessner, Alfred.....142,340; 147,402.
Morley, Frank.....137,284.
Parker, W. V.....100,50; 113,53; 118,54; 154,403.
Robberson, J. S.....136,284.
Schwanda, Benedict C.....135,284.
Thebault, V.....149,402.
Umberger, E. H.....148,402; 145,401.
Yates, Robert C.....140,339; 141,340.

PROBLEMS SOLVED

Of each pair of successive numbers followed by a semicolon, or a period, the first denotes the NUMBER of the problem proposed, the second, the PAGE on which it is solved.

Altshiller-Court, Nathan.....124,60; 125,60.
Alrich, G. F.....137,398.
Balof, C. A.....119,55; 121,57; 122,58; 123,59; 116,61; 120,56.
Bickerstaff, T. A.....113,53; 131,283.
Briggs, A. C.....113,54; 119,56; 120,56; 121,57; 122,58; 123,59; 130,282; 112,283; 114,283.
Brother Northbert.....119,56.
Byrne, William E.....109,52.
Clack, R. W.....136,398; 137,401.
Clarke, W. B.....113,54; 122,58; 130,282; 131,283; 136,398.
Crain, Karleton W.....119,55; 121,56; 131,283; 137,401.
Higgins, V.....137,401.
Howe, W. J.....131,282.
Janes, W. C.....135,397; 136,398.
Meyer, Lucille G.....130,282.
Miller, R. A.....122,58; 123,58.
Parker, W. V.....113,54; 118,54.
Rickey, F. A.....137,401.
Robberson, J. S.....136,398; 137,401.
Rosenbaum, J.....137,398.
Schroeder, Hy.....121,57.
Schwanda, Benedict C.....135,397.
Trigg, C. W.....126,396; 127,396; 135,397; 137,401.
Umberger, E. H.....136,397.
Yates, Robert C.....81,394; 100,50; 137,400.
